The files for Tumella Investments CC GitHub Pages website are prepared as follows:

1. **index.html**: Complete homepage with sections: Hero, About, Services, Contact, Footer.
2. **assets/tumella-logo.png**: Placeholder logo for center display.

To use: - Download and unzip the package. - Replace `assets/tumella-logo.png` with your actual logo. - Upload the files to your GitHub repository root. - Enable GitHub Pages from the repository Settings > Pages. - Your site will be live immediately at `https://<your-username>.github.io/<repo-name>/`.

This package is fully responsive, uses your brand colors (green, gold, white, dark gray), and is ready for customization.
